

# USING SYNERGIES FOR SUSTAINABLE EVENT ORGANISATION

- You too can benefit from existing infrastructure
- Secure 2023 and 2024 event dates

# USING SYNERGIES FOR SUSTAINABLE EVENT ORGANISATION

## USE EXISTING EVENT INFRASTRUCTURE AND SAVE TIME AND MONEY

There are, indeed, ways to plan events in a more sustainable way. How? Use synergies. Formats with extensive infrastructure should and can be used much better in future. As a result, the long set-up and dismantling times can be streamlined better and reduced for projects that follow each other closely.

For this reason, we have already created a set of dates for you in 2023 and 2024, where you, too, can benefit from existing infrastructure and make a contribution to sustainable events. Below, you will find our offer from which everyone can benefit:

Location:	Curling hall
Time period:	1 day (up to 14 hours)
Capacity:	200 to 2,400 people Concert seating
Infrastructure:	Stage (20 × 6 m) with furniture Screen (16 × 4.5 m) Light and sound
Optional:	Simultaneous interpretation Hybrid format Special seating arrangement

In the following weeks in 2023 and 2024, your event could be the perfect fit for an ideal and sustainable meeting, as the infrastructure is already in place:

- 2023: from 15<sup>th</sup> to 26<sup>th</sup> may 2023
- 2024: from 20<sup>th</sup> to 31<sup>th</sup> may 2024

Ideal for:

- Association assemblies or annual general meetings
- Conferences
- Symposia
- Staff events

Contact us early and reserve a date for your event:
